Canepa Design Cadillac CTS-V Coupe Body Kit

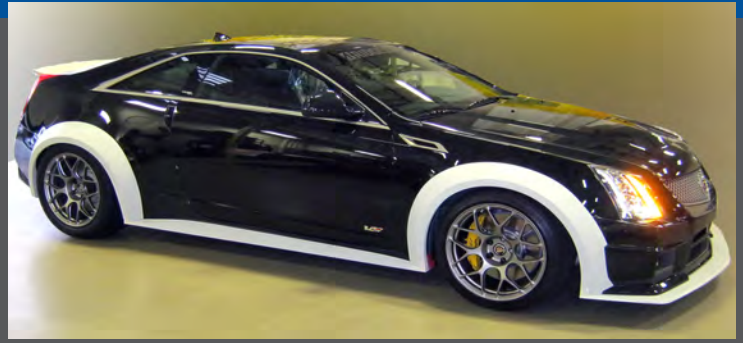

The Canepa Design Cadillac is a bold statement of aggression and grace, strength and purpose. The CTS-Vs dramatic figure has been reinterpreted by Canepa from luxury GT into a true race-inspired sports coupe. Each carefully detailed feature provides graphic evidence of the painstaking engineering and quality that is synonymous with Canepa Design.

Made from the same hand-laid molds as the Canepa Design / Bridgestone show car that wowed SEMA in 2011, these kits will transform your Coupe from everyday to exotic. All composite elements are hand-fashioned by the race-trained craftsmen at the Canepa Motorsport facility in Northern California. These stylish additions will instantly add presence, performance, and punch to your Cadillac CTS-V Coupe.

CTS-V Coupe body kit includes

- Canepa Design Front and Rear Spoilers
- Canepa Design Front and Rear Fender Flares
- Canepa Design Lower Side Skirts

Shipped factory direct from Canepa Design.
